# Herbert Da Silva Nascimento

Front End Web Developer

<https://www.linkedin.com/in/hebertt-nascimento/>

<https://github.com/Kamui-Hebertt>

## Professional goals

I am currently looking for opportunities that will allow me to contribute to the company and earn experience in the area through the development and promotion of consolidated technologies. I'm also currently studying back-end stacks like node.js and Mysql.

## Academic education

- Pursuing a Bachelor's Degree in Software Engineering
- Full Stack Web Development - Trybe, will be finalized in July 2023.  
The program has over 1,500 class hours and covers introduction to software development, front-end, back-end, computer science, software engineering, agile methodologies and soft skills.

## Professional Experiences
